# Aesthetic Worx

Welcome to Aesthetics Worx, my name is  
Carmen Joubert.

I am a qualified Medical Aesthetician trained in  
non-surgical interventions for aging and  
scarring caused by past trauma or scarring.

---

## HIFU Treatments

---

HIFU is a cutting-edge technology that targets  
the deeper layers of your skin to stimulate  
collagen production. This safe and effective  
treatment offers noticeable lifting and  
tightening of the face, jawline, and neck  
without the need for incisions or recovery time.

Experience up to a 20% improvement  
immediately after treatment, with continued  
enhancements over the following weeks, and  
results that last up to 3-5 years.

## Plasma Fibroblast

---

Plasma fibroblast therapy uses a pen-like device that discharges a high-frequency electric current to small areas of the skin. The plasma tip doesn't directly touch the skin, but instead releases targeted current just above the skin. The hot current creates small holes, or micro-injuries in the skin layer, triggering the body's natural healing response, leading to firmer, smoother, and more youthful-looking skin. Ideal for targeting fine lines, wrinkles, and even scar improvements.

Forehead 60min	R 900
